ST. CLAIR COUNTY - Land Pollution Control
Sauget/Sauget

Mr. Paul Sauget
Sauget and Company
2902 Monsanto Avenue
Sauget, Illinois 62206

Dear Mr. Sauget:

This will acknowledge receipt of your January 12, 1973 letter regarding our previous correspondence subject as above.

Your letter is being forwarded to our regional unit for their information and reinspection in the near future to verify the condition of your site as noted in your letter.

Should you have any future questions or comments in this matter, please feel free to contact me at this address.

Very truly yours,

ENVIRONMENTAL PROTECTION AGENCY

C. E. Clark, Manager
Surveillance Section
Division of Land Pollution Control

Re: St. Clair County - Land Pollution Control
Sauget/Sauget

Dear Mr. Clark:

In response to your letter dated January 3, 1973, I want to answer what you refer to as violations of the Illinois Environmental Protection Act.

As stated before, on advice of my attorney, I do not need a permit until the Illinois Pollution Control Board adopts new rules and regulations.

When I registered this site in 1967 this area was taken into consideration. Although there is some question as to where the lot lines are, the same property owners own all of this area.

There is no open dumping.

Refuse is being spread and compacted.

Cover is put on the fill area daily and the finished area is receiving a final cover.

The site is posted for the days and hours open

Personnel is on the site 24 hours a day.

If some of the old refuse is being incorporated into underlying earth it is done accidentally with the dozer.

K.
